

Pharma Agentic AI – Summary Report

Overall Summary:

Total market size: 5737.1 Mn USD with average 5Y CAGR 7.8%. Records: 14. | Total imports: 9366.1 tonnes, total exports: 10446.6 tonnes across 201 records. | Found 1 relevant patents. Earliest expiry year: 2031. | Found 27 clinical trials matching the criteria. | Opportunity assessment for MOLX in Asthma in India: Leveraging unmet needs and pain points to maximize potential. | GINA 2024 emphasizes ICS-formoterol low-dose inhalers for uncontrolled mild asthma and prefers once-daily inhalers for improved adherence. However, Indian RWE studies indicate poor adherence in Tier-2/3 cities due to high inhaler costs and incorrect inhaler use leads to poor symptom control. The data also highlights increased reliance on oral steroids in rural areas.

IQVIA Insights Agent Findings:

Total market size: 5737.1 Mn USD with average 5Y CAGR 7.8%. Records: 14.

EXIM Trade Agent Findings:

Total imports: 9366.1 tonnes, total exports: 10446.6 tonnes across 201 records.

Patent Landscape Agent Findings:

Found 1 relevant patents. Earliest expiry year: 2031.

Clinical Trials Agent Findings:

Found 27 clinical trials matching the criteria.

Internal Knowledge Agent Findings:

Opportunity assessment for MOLX in Asthma in India: Leveraging unmet needs and pain points to maximize potential.

Web Intelligence Agent Findings:

GINA 2024 emphasizes ICS-formoterol low-dose inhalers for uncontrolled mild asthma and prefers once-daily inhalers for improved adherence. However, Indian RWE studies indicate poor adherence in Tier-2/3 cities due to high inhaler costs and incorrect inhaler use leads to poor symptom control. The data also highlights increased reliance on oral steroids in rural areas.
